#### Teacher Assistant

September, 2022 – May, 2024

- As a computer science teaching assistant, I provided valuable support to students by facilitating lab sessions, grading assignments and providing one-on-one assistance with coursework. I demonstrated a deep understanding of computer science concepts and programming languages, including Java, Python, and C++. By explaining complex ideas in an accessible way and encouraging active participation, I helped students develop critical thinking and problem-solving skills. My dedication to student success and strong communication skills made me an asset to the computer science department. Classes included:
  - Intro to Computer Science – HTML, JavaScript, CSS, and Python
  - Comp I – C and C++
  - Comp II – C and C++
  - Data structures and Algorithms – Language you prefer.
